City of Regina

REGINA is the capital of the Province of Saskatchewan, the seat of government, and is situated 357 miles west of Winnipeg on the Canadian Pacific Railway.

The first settlers of the district arrived in May, 1882, and subsequently a canvas town sprang up where the trestle bridge carries the main track of the C. P. R. across Wascana Creek, about a mile west of the centre of the city.

The selection of the townsite of Regina was arranged jointly by the Government and the C. P. R. Company. Early in 1883 an officer of the North-West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the Railway Company to enter into partnership regarding certain townsites, one of which was to be the seat of Government for the North-West Territories. Acting under this agreement the General Manager of the Railway Company, then W. C. Van Horne, and Mr. Dewdney, the Governor of the Territories, selected four sections, viz.: 19 and 30,

township 17, range 19, and 24 and 25, township 17, range 20, west of the second meridian, to constitute the townsite of Regina. These sections were subsequently vested in Messrs. Osler, Scarth, Smith and Angus, trustees, to administer and divide the net proceeds between the Dominion Government and the Railway Company.

The name "Regina" was conferred on this townsite by the Governor General Lord Lorne, who had been requested to select a name for the future capital.

The arrangement for the control of the townsite by the townsite trustees was terminated by Order in Council of 29th December, 1900, and by further Order in Council of 6th April, 1903, the granting to the Municipality of the lots in the townsite which had reverted to the Crown, was authorized.

By Order in Council, 27th March, 1883, the Town of Regina was declared to be the seat of Government of the North-West Territories, in place of Battleford.

The first school was opened in the town in the spring of 1883 the first Dominion Lands Office, a low frame building, was brought up on a flat car from Troy (afterwards called Qu'Appelle) and was placed at the corner of Broad Street and Victoria Avenue.

In April, 1883, a public meeting was held to discuss the matter of the site of the proposed post office, the site finally selected being on Victoria Avenue.

Up to March 7, 1883, when the round-house was burned, Regina had been a divisional point of the C. P. R., but after

that date the headquarters of the division was moved to Moose Jaw.

On 13th May, 1883, Lieutenant Governor and Mrs. Dewdney arrived to take up residence in Regina, and were met on their arrival by a large number of citizens, and His Honor was presented with an address.

On July 1, 1883, Regina was made a Money Order Point. Lots on South Railway Street changed hands at \$800 to \$1,000 each. A public meeting and a citizen's committee was formed to carry on the business of the town. Mr. John Secord, barrister, was appointed Secretary, Sub-committees were appointed on Finance, Sanitation, Fire and Water and Miscellaneous Affairs. A committee was also appointed to draft a charter of incorporation, and the Finance Committee were instructed to collect \$2,000 by public subscription for public works.

Elections for the North-West Council were held in August, 1883. Mr. William White was selected for the Regina District. The Fifth Council of the North-West Territories was opened by Lieutenant Governor Dewdney on August 22, 1883. A bill entitled "An Ordinance Respecting Municipalities" was introduced in the North-West Council on September 12, 1883, and a public meeting of citizens was called to discuss the matter of incorporation.

In October, 1883, a lot on Eleventh Avenue near Rose Street, was sold for \$275. At this time farm lands in the vicinity of the city were worth about \$5 per acre.

On Monday, October 8th, the Civic Council met and took final steps to comply with the Ordinance to provide Municipal Government. The Government Buildings, Council Chambers and Indian Office on Dewdney Street were completed in October. The first telephones privately owned were introduced into the town at this time.

Up to December, 1883, Regina had two chartered banks, the Bank of Montreal and the Merchants Bank. It was, however, found that there was not enough business for two banks, and the Merchants Bank was therefore withdrawn.

Nominations for the first municipal elections took place on January 3, 1884. two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs, Mr. D. L. Scott, now Judge of the Supreme Court of Alberta, was the first mayor.

Regina was incorporated as a City on June 19, 1903, and is now the Capital and seat of Government of the Province of Saskatchewan. The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands in its own grounds of about 160 acres, south of Wascana Lake and within the city limits.

It has well been said that there are no Parliament Buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan capital.

The building is constructed of Tyndall stone, fireproof throughout, and was erected by Peter Lyall & Sons of Montreal, at a cost of approximately \$1,900,000, the erection being commenced in the fall of 1908, and the Departmental Offices occupied in the fall of 1910. The length of the buildings is about 543 feet, and the height of the dome approximately 187 feet. The central portion is 98 feet in width and 267 feet in depth with a wing on either side, each 222 feet long and 72 feet in depth.

The City Council is composed of a Mayor and ten Aldermen. The Mayor is elected annually by a general vote of the electors, and, commencing with the Municipal Election of December, 1914, the Aldermen have also been elected in the same manner except that they hold office for two years. Prior to that time they were elected annually from the five wards of the City, two representatives to each ward. The Bylaw making this change was ratified by the electors on the 10th of August, 1914, and provided for the abolition of the ward system and for the reversion to the system of the election of Aldermen by a general vote of the electors.

Regina is unquestionably the financial centre of the province, and its development in this respect is very remarkable. Eleven of the leading Canadian Banks now have branches in the city, and the majority of them have erected substantial and elaborate offices of their own.

The Bank Clearing House Association

was established and commenced business on first October, 1909.

The Bank Clearings have been as follows:

1910 ...	\$ 50,739,159.	
1911 ...	73,032,088.	Increase.. \$22,292,929
1912 ...	115,727,648.	Increase.. 42,695,560
1913 ...	132,087,457.	Increase.. 16,359,809
1914 ...	98,205,541.	Decrease. 33,881,916
1915 ...	87,122,611.	Decrease. 11,082,930
1916 ...	124,349,589.	Increase.. 37,226,978
1917 ...	169,800,113.	Increase.. 45,450,524
1918 ...	184,624,631.	Increase.. 14,824,518
1919 ...	210,898,989.	Increase.. 26,274,358

For 1919 the average weekly clearings amounted to \$4,055,750, which is a full half million per week more than in 1918, and over three-quarters of a million per week greater than in 1917.

Regina is the tenth City in the Dominion as regards Bank Clearings.

Practically every loaning institution of importance in Canada has an office in the city, many of them occupying their own building.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta, the City being the headquarters of Western Canada for this class of business. As an indication of this it may be said that the authorizations granted by the Local Government Board for the issue of Municipal, School and Rural Telephone Debentures in Saskatchewan alone for 1919 amounted to \$7,-190,927.

Regina is justly entitled to be termed the best served Railway City in Western Canada. Twelve lines of railway radiate in all directions from the City and the C.P.R., C.N.R., and G.T.P. vie with each other in their endeavor to give Regina an excellent train service.

The Great Northern Railway has direct communication between Regina, Minneapolis, St. Paul and other Southern Cities, over the G.T.P. Railroad Boundary Line. In addition to the lines in operation, bonds have been guaranteed by the Provincial Government for ten additional branch lines which, when completed, will make a total of 22 railway lines radiating in all directions from Regina. A new Union Depot for the C. P. R. and C. N. R., thoroughly modern and up-to-date in every particular, has been erected and is now in use, but the C. N. R. has acquired considerable property in the east end of the City and it would seem probable that this Company will erect a Passenger Depot of its own in the near future.

The G.T.P. plans under way include the erection of a Station, a magnificent Hotel, Power House, Laundry, Train Sheds and Underground Tunnel to cost in all approximately \$2,000,000. The foundation and steel work for the Hotel has been started.

Owing to its geographical situation in the heart of the grain growing district of Western Canada and with unequalled railway facilities, Regina is the largest distributing point for agricultural implements in the world, and practically every Canadian and American Implement Man-

ufacturing Firm of any importance has its agency in the City.

The official estimate of the value of goods shipped from Regina in 1913 was over \$20,000,000 in agricultural implements and approximately \$40,000,000 for wholesale distribution generally.

The advantages for the distribution of other lines of goods are on a par with those for agricultural implements, and Regina has a large number of manufacturing concerns, some 114 wholesale and over 360 retail houses.

During 1915 the Robt. Simpson Western Limited acquired two blocks of land in the City's warehouse area and erected a building costing some \$300,000, which it proposes to extend to double its present capacity. It carries on a Mercantile Mail Order business and will conduct such other Mercantile or Manufacturing business as may subsequently appear expedient. The Company employed during the first year an average of 300 employees and now employs some 930 hands.

The Imperial Oil Company, early in 1916, secured some 50 acres of land adjoining the City whereon they have erected an oil refining plant which cost far in excess of \$500,000. Further large expenditures in the plant in the near future are in contemplation. The Company employs some 300 hands. During 1918 this Company purchased a block of land and erected thereon some 30 attractive modern houses for its employees, and practically all of these houses are occupied.

During 1916 new warehouses were also constructed by the Prairie Biscuit Co.,

The Canada West Electric Limited, and the Canadian Consolidated Rubber Company. Warehouses were also secured by other concerns, chiefly The McDonald Company, wholesale grocers; The Chevrolet Company, automobiles; The Pat Burns Company, meat packers; The Auto Service Company, and the Producers' Commission Company, Limited.

In 1917 the T. Eaton Company, Limited, purchased from the City two blocks of land on which they have erected a new Mail Order House which cost some \$500,000. The Company at present handles the heavy lines of goods which it sells and employs some 100 hands. The Company's plans provide for the addition of a retail store in front of the warehouse when business warrants.

Last year properties were purchased by the Robert Bell Engine and Thresher Company, Limited, the McNall and Company, Limited, Winnipeg Ceiling and Roofing Company, Limited, Sanitary Buildings, Limited, Ford Motor Company and Beatty Bros. These new firms have located here under conditions that buildings to the value of at least \$210,000 be erected. Other important negotiations are under way and prospects are exceptionally bright for 1920 in this connection.

(For further instructions respecting this warehouse area, see Page 62).

The City is a firm believer in Municipal Ownership and owns its Street Railway, of which it has some 30 miles constructed within the City limits; Light and Power Plant supplying cheap light and power and water systems, the water

being obtained from springs distant some eight miles. With regard to the two last mentioned utilities, the City has planned the expansion of the present system so that when complete they will provide for a population many times the number of the present one, supply sufficient power and provide adequate fire protection throughout the City.

In connection with cheap power an agreement has been entered into with Messrs. McLaws, MacKenzie and Robinson for the supply of natural gas. The Company is to install and operate the plant but provision has been made for the City to purchase same when desired.

During 1914 the City extended its Municipal Ownership still further by the establishment of a Municipal Stock Yards on a scale sufficiently large to accommodate all the live stock raised in the Province. The yards were opened in September, 1914, and considerable business has been carried on. The ultimate aim of the City is to provide an up-to-date Stock Yard to furnish a good market for all stock raised in the country tributary to the City. In this connection the Pat Burns Company is making extensive improvements to its abattoir and other property it already has here.

Regina is the headquarters of the Saskatchewan Co-operative Elevator Company and the Grain Growers' Grain Company. The former employs some 400 employees with annual pay roll of approximately half a million dollars. Both have been of remarkable benefit to the farmers and agriculture generally.

The City's Public Market, under the control of the Local Council of Women, contributes in no small measure to the welfare of the residents of Regina and to the people in the districts surrounding the City, in providing an open market for the sale and purchase of all kinds of supplies at first cost.

As a residential centre Regina offers every inducement to the homeseeker. In this respect it has been referred to as "the City of Beautiful Homes."

From the educational and social points of view, the City also offers every advantage. With a population of about 40,000 the City has the Regina College, St. Chad's College, the Provincial Government Normal School, all carried out in Gothic treatment, and a Collegiate Institute of classic design. A magnificent College is projected by the Presbyterians, their scheme including the purchase of some three or four hundred acres of ground on which to erect College buildings at a cost of about \$1,000,000, also a Hospital and other buildings in connection with the same. This will make provision for the education of both sexes. The Roman Catholics have also expressed their intention of erecting a substantial College. From these points it will be seen that the City, although not fortunate enough to possess the Provincial University, may claim to be the educational centre of the Province. In addition to the above, there are some 16 Public and Separate Schools, 29 Churches, Y.M.C.A., Y.M.C.A. Military Hut, and Y.W.C.A., two Public Hospitals and several Private

Nursing Homes; a Public Library with three branches; several Business Colleges and numerous Societies for the advancement of Art, Music, Literature and Science; one daily Morning Paper, one daily Evening Paper, two weekly papers and several monthly trade publications.

As to amusements, the City has two Theatres, and plans for the construction of another are under way. There are also some four Moving Picture Theatres. The lake adjoining the Parliament Buildings offers facilities for boating, bathing and skating. Many fraternal Societies and other Organizations exist, devoted to amateur theatricals, cards, debates, etc. The City is within easy distance of Last Mountain and Katepwa Lakes, two of the beauty spots of the Province and delightful holiday resorts, offering unequalled facilities for bathing, fishing and boating.

Regina is the best paved city in Canada for its size, having some 31 miles of paved streets, 75 miles of graded streets, 42 miles of granolithic and 74 miles of plank sidewalks. The City also has some 70 miles of sewer with 6,427 connections; some 74½ miles of water mains with 522 hydrants and 3,948 house connections; four fire stations with some 52 firemen and a full equipment of the most modern fire fighting apparatus, some 257 acres of parks, a trunk sewer and sewage disposal works and an incinerator plant for the disposal of garbage.

Regina's Municipal Buildings would do credit to a far larger city. The funds for their erection have been to a great extent provided by the sale of the town-

site lands, yet the City still possesses an asset in its saleable property which is valued at some \$1,794,649.

Regina is also the headquarters of Military District No. 12 which comprises the Province of Saskatchewan. This adds much to the business and social life of the City. Further details as to the officers comprising the staff and units in the garrison will be found on Page 115.

MAYORS OF THE TOWN OF REGINA

From the Date of Its Incorporation as a
Town in the Year of 1883 to the Date of
its Incorporation as a City, June 19,
1903.

MEETINGS OF COUNCIL

The first Meeting of the Council in each year is held on the first Monday in January, except when that day is a public holiday, in which case the Meeting takes place on the next subsequent day which is not a public holiday; and the Council of the previous year holds office until the new Council meets.

The subsequent regular Meetings of Council are held on the first and third Tuesdays in each month throughout the year at 7.30 p.m.

Special Meetings of the Council may be called by the Mayor whenever he deems it expedient, and he may do so when requested in writing by a majority of the Council.

A majority of the whole Council constitutes a quorum.

ORDERS OF THE DAY

The "General Orders of the Day" at each Meeting are as follows:

- (1) Confirming Minutes of Last Meeting.
- (2) Original Communications and Petitions.
- (3) Presentation and Consideration of Committee Reports.
- (4) Presentation and Consideration of City Commissioners' Report.
- (5) Inquiries and Answers thereto.
- (6) Motions.
- (7) Giving Notice.
- (8) Introduction and Consideration of Bills and Bylaws.
- (9) Unfinished Business.

COMMITTEES OF COUNCIL.

At the beginning of 1916 the Council abolished the various Standing Committees and substituted therefor a Special Committee consisting of all the members of Council with the Deputy Mayor as Chairman. This Special Committee meets every Friday evening at 7.30 o'clock and undertakes the duties and performs the functions of all the former Standing Committees.

Sub-Committees are appointed from this large Committee from time to time for the purpose of considering and reporting upon particular subjects and on any matters which may be referred to them.

CIVIC OFFICIALS

Mayor—Jas. Grassick.

Hours at City Hall from 10 a.m. to
11 a.m. daily.

Office Phone 3619.

Residence—1604 Sixteenth Avenue.

Phone 3495.

City Commissioner—

L. A. Thornton.

Office Phone 3096.

Residence—2341 McIntyre Street.

Phone—3881.

Jas. J. Raven.

Residence—873 Robinson Street.

RECORD OF CIVIC STAFF DURING WAR.

During the War 192 members of the Civic Staff enlisted as Volunteers in the Overseas Expeditionary Forces. This represented 50 per cent. of the average number of employees on the Civic Pay-rolls for the years 1915 to 1918. Of the total who joined the Colours we regret to state that no less than 33 gave their lives for their Country. Six were decorated for bravery in action, while one was promoted on the Field.

A large number of those who enlisted returned to the service of the Civic Departments, while others appear to have decided to engage in other pursuits. At the end of last year 85 had been reinstated and 73 Returned Men, not formerly employed, had been engaged, making a total of 158 Returned Men then in the employ of the various Departments.

ENLISTMENTS FROM CITY AS A WHOLE

The citizens of Regina as a whole have freely offered their services for their Country. According to the records of Military District No. 12, almost 6,000 local men had up to 26th April, 1918, enlisted in the under-mentioned units which were recruited either wholly or in part in Regina. It is estimated that with the men who have enlisted with Winnipeg and other outside battalions, the total enlistments would be about 6,500:

1st C. M. R	4
9th C. M. R	7
10 C. M. R.	7
3rd Field Ambulance	7
10th Battalion	2
P. P. C. L. I.	59
28th Battalion	344
5th Brigade C. F. A.	131
46th Battalion	573
8th Stationary Hospital	14
53rd Battalion	6
68th Battalion	1382

FIRE DEPARTMENT.

The Fire Department is under the control of the City Council. It consists of one Chief, eight Captains, one Mechanic, two Operators and 40 Firemen. The Department is now under the Two-Platoon System, half the members being on day shift and the other half on night shift, the change being made at 8.00 a.m. and 6.00 p.m. each day. The members are more contented under this system than under the old system of 24 hours on duty every day of the year.

The Fire Loss for the City during 1919 was \$36,016.00, a per capita loss of 90 cents, the loss not covered by insurance being \$11,273.00. The per capita fire loss for Canada for 1919 was over \$3.00. Canada has the unenviable reputation of destroying more property by fire every year than any other nation in the world. Over 50% of fires are preventable and 25% partly preventable. A few of the principal causes of fires are ashes put too close to buildings or other wood material, coal oil stoves and heaters, cigar and cigarette stubs thrown amongst inflammable material, lighted matches thrown down and children playing with same, careless handling of gasoline, overheated stove and furnace pipes too close to ceilings and wood partitions. The Fire Department was called to 125 dwellings last year.

There are 522 Fire Hydrants and 60 Fire Alarm Stations in the City.

Central Fire Hall—Headquarters: 1825-1839 Hamilton Street. Phone for Fire only 99. Chief's Office 5101.

- No. 2 Fire Hall—Scarth Street and Eighth Avenue. Phone 3322.
No. 3 Fire Hall—Robinson Street and Fourteenth Avenue. Phone 5363.
No. 4 Fire Hall—Winnipeg Street and Victoria Avenue. Phone 2334.

Always when using the telephone in case of fire ring 99. Keep cool, speak slow and plain, and give name of street and number of block or building. If you get excited and yell in the phone, it only delays the department that much longer.

FIRE ALARM BOXES AND DIRECTIONS FOR USING

The telegraph fire alarm is the quickest way to notify the Fire Department of a fire.

The key is always in the box to open the door. To reach the key, break the glass, turn the key to the right and pull door open. Inside is a hook near the top of the box which must be pulled down once and then let go.

Wait at the box until the Fire Department arrives and direct them to the fire.

SITUATION OF BOXES.

Look over this list and find the nearest box to your home, or the boxes you pass every day to and from your home. The Fire Department have to depend on the citizens for sending an alarm of fire in promptly.

134. Edgar Street and Thirteenth Ave.
141. Queen Street and Thirteenth Ave.
142. Pasqua Street and Fourteenth Ave.
143. Arthur Street and Thirteenth Ave.

There were thirteen new Fire Alarm Boxes installed during 1919, all in the outlying districts.

Any person sending in a false alarm of fire or interfering with the fire alarm is liable to a fine of \$50.00.

FIRE PREVENTION

Bylaw No. 839 passed by the City Council in 1915 has for its object the prevention of fire within the City Limits

and the safeguarding of life and property against fire. "Conservation," the official organ of the Commission of Conservation of Canada, has commented very favorably upon this bylaw. It made particular reference to the sections of the bylaw dealing with the handling of rubbish, the disposition of hot ashes and the prohibition of lighted bonfires within the city limits without a permit from the Fire Chief. The Fire Chief reports that the citizens have taken kindly to the inspection work carried out. In many cases they welcome the men who are able to give advice on prevention of fires. The Fire Department seeks the co-operation of the citizens in its work to prevent fires and reduce the fire loss.

REFUSE DISPOSAL SYSTEM

Regina has now in operation one of the most modern Refuse Disposal Plants on the continent. All refuse collected from the City is hauled to a Central Transfer Station, where it is loaded into steel dump cars. From the Transfer Station, which was specially constructed for this purpose at a cost of \$20,000 the refuse is transferred over the Street Railway to the Incinerating Plant at the Disposal Works, a distance of two and a half miles. The Incinerating Plant, recently constructed at a cost of \$64,000, has a capacity of 110 tons per 24 hours and is modern in every particular. It is proposed to utilize the steam generated at the plant to drive the pumps at the Disposal Works and to light the grounds.

Under Tax Collection Bylaws Nos. 862 and 885, taxes are payable in two installments, the first being payable by July 31st. A discount of 5 per cent. on the first installment (exclusive of Local Improvement Taxes) will be allowed if paid on or before June 30th. The second installment is payable on or before December 31st and a discount of 2½ per cent. will be allowed on this installment (exclusive of Local Improvement Taxes), if paid on or before October 1st, providing the first installment is already paid in full. A penalty of 8 per cent. will be added to all taxes outstanding on 1st of January following the year for which the taxes are levied.

Number of hydrants	522

LOCAL IMPROVEMENTS

When the owners of property abutting on any street or place desire the construction of any of the following local improvements, application should be made to the City Clerk for a form of petition to the Council for the work or improvement. Such petition must be signed by at least two-thirds of the registered or assessed owners of property abutting on the street or place where the work or improvement is required, and representing at least one-half in value of such property; and on

receipt of such sufficiently signed petition the Council may proceed with the work or improvement and assess the cost in whole or part against the property benefited.

If, in the opinion of the Council, any such work or improvement is necessary and in the public interest, it may direct that it be proceeded with unless a petition against said work or improvement signed by a majority of the owners of the property affected and representing at least one-half in value thereof, be received by the Council within two weeks after the last publication of the intention of the Council to undertake such work or improvement, which publication must be made once in each week for two successive weeks in some newspaper published in the City.

A work of any of the following descriptions may be undertaken as a local improvement, that is to say:

(a) The opening, widening, straightening, extending, grading, levelling, macadamizing, paving or planking of any street or public lane, alley way or place; or

(b) The constructing of any sidewalk, which shall include any street crossing constructed in connection with a sidewalk, bridge, culvert or embankment forming part of a highway; or

(c) The curbing, sodding, boulevarding or planting of any street or public lane, alley, square or other public place; or

(d) the making, deepening, enlarging or prolonging of any common sewer or water main and sewer or water service connections; or

(e) The constructing of any conduit for wires or pipes along any roadway, street, lane, alley, square or other public place; or

(f) The reconstructing (but not the mere repair and maintenance) of any of the said works during the originally estimated lifetime thereof; or

(g) The repairs and maintenance thereof after the lapse of the originally estimated lifetime thereof; or

(h) The erecting of ornamental street lighting standards; or

(i) The installing of high pressure water mains specially constructed for the purposes of fire protection.

It has been the custom of the Council to take advantage of the alternative provided by The City Act, and proceed by way of Notice of Intention, but such Notice of Intention has almost invariably originated with the reception of an insufficiently signed petition from adjacent property owners, which petition, although insufficiently signed and therefore not entitling the Council to proceed in accordance therewith, indicated a desire on the part of the property owners for the construction of such work or improvement.

The assessment of the cost of the several improvements is spread over the following terms:

Pavements	15 years
Sidewalks (concrete)	20 years
Sidewalks (plank)	5 years
Sewers	30 years
Water Mains	30 years

BUILDING RECORDS

Year—	Permits	Cost
1904	162	\$210,000
1905	346	750,000
1906	420	2,000,000
1907	480	1,177,840
1908	253	516,656
1909	282	749,479

Plant

The generating plant at the old Power House consist of four boilers aggregating 1,000 horse power.

One 450 kw. low pressure turbine generating unit.

Two 400 kw. direct current railway units, vertical engine type.

One 1,200 kw. motor converter, converting some 2,200 volt three phase to 600 volt direct current.

The old plant is used jointly by the Electric and Waterworks Departments as a sub-station and pumping station.

No. 2 Power House has been completed, in which the following additional apparatus is installed.

Two 1,500 kw. high pressure turbine generating units, one 3,000 kw. high pressure turbine generating unit and one 5,000 kw. General Electric Curtis high pressure turbine.

Six boilers aggregating 3,000 h.p. capacity with Riley mechanical underfeed stokers.

The plant is fitted with all the most modern labor saving devices.

One hundred arc lamps, 496 series nitrogen, and 50 incandescent (used in subways) lamps are in use.

Rates

Light: For energy used for light in one installation and registered on not more than three meters, by one consumer in one building:

A base or service charge of fifty cents per month per kilowatt connected load or per K.V.A. setting of consumer's circuit breaker, plus an energy charge as follows:

First 20 kw. hours at 7 cents per kw. hour.

Next 280 kw. hours at 6 cents per kw. hour.

Next 300 kw. hours at 5.5 cents per kw. hour.

Next 400 kw. hours at 5 cents per kw. hour.

Next 1,000 kw. hours at 4.5 cents per kw. hour.

All over 2,000 kw. hours at 4 cents per kw. hour.

For energy used on lighting installations of 15 kw. demand or over, using full demand 120 hours per month during day or off peak hours the following rates will apply on the off peak consumption:

First 1,000 kw. hours at 4 cents per kw. hour.

Next 1,000 kw. hours at 3.5 cents per kw. hour.

All over 2,000 kw. hours at 3 cents per kw. hour.

Combination Rate: Lighting and cooking registering on one meter:

First 20 kw. hours at 7 cents per kw. hour.

Next 30 kw. hours at 6 cents per kw. hour.

All exceeding 50 kw. hours at 1.25 cents per kw. hour.

The service charge remains the same on the lighting load, and the cooking utensils are rated at 30 cents per kilowatt per month demand of cooking range or utensil. This rate applies to permanent connections only.

Power: For energy used for power in one installation and registered on not

more than three meters by one consumer in one month in one building:

A base or service charge of 50 cents per month per horse power of connected load or per K.V.A. setting of consumer's circuit breaker, plus an energy charge as follows:

First 20 kw. hours at 5 cents per kw. hour.

Next 280 kw. hours at 4 cents per kw. hour.

Next 300 kw. hours at 3 5 cents per kw. hour.

Next 300 kw. hours at 3 cents per kw. hour.

All over 900 kw. hours at 2.5 cents per kw. hour.

For energy used on power installations of 15 kw. demand or over using full demand 120 hours per month during day or off peak hours the following rates will apply on this off peak consumption:

First 300 kw. hours at 3 cents per kw. hour.

Next 300 kw. hours at 2.5 cents per kw. hour.

Next 300 kw. hours at 2.25 cents per kw. hour.

Next 300 kw. hours at 2 cents per kw. hour.

Next 300 kw. hours at 1.75 cents per kw. hour.

All over 1,500 kw. hours at 1.5 cents per kw. hour.

Exterior lighting or signs over 1 kw. of demand classed as power service.

A discount of ten per cent. will be allowed if paid within ten days on all of the above rates.

Special Energy Charge: Installations of 50 horse power or 50 kw. of demand or over, taking energy at 2,200 volts and not less than 90 per cent. power factor and using full demand on an average of ten hours a day 30 days per month, the energy charge will be 1.25 cents per kw. hour for all energy metered. No discount.

Installations of 50 horse power or 50 kw. of demand or over taking energy at 2,200 volts and not less than 90 per cent. power factor, and using full demand an average of twenty hours per day 30 days per month the energy charge will be 1.1 cents per kw. hour for all energy metered. No discount.

Special rates will be arranged on large services according to the conditions of the service.

Hours in which the low rate applies:

From April 1st to September 30th from 12 midnight to 6 p.m.

During March and October from 12 midnight to 5 p.m.

From November 1st to February 28th from 12 midnight to 5 p.m.

Meters are installed on all services. Electric ranges and lamps sold at the Electric Department Office,, corner of Broad and Dewdney Streets.

Accounts are rendered monthly by the City Treasurer and are payable monthly. Ten per cent. discount is allowed on current light and power only if paid within ten days of account leaving the Treasurer's Office. Commencing July 1st, 1918, ten per cent. was added to all accounts as a war measure.

In the event of non-payment of account connections are cut off within twenty days after date of mailing account, and a fee of \$1.00 charged for re-connection.

Applications

An application is positively required in every case of new tenancy, and the current will be disconnected without notice, when it has been found that an application has not been made.

All applications for energy, where installation is not new, are made at the City Treasurer's Office. All applications for new installations are made at the City Power House.

Vacating Premises

Consumers when vacating premises are requested to notify the City Treasurer immediately, so that meter may be read and current disconnected.

Deposits

A deposit (schedule as under) is required to be made at the time of making application:

Light:

1 to 5 lights	\$2.00
6 to 20 lights	5.00
21 to 40 lights	10.00
41 to 60 lights	15.00

and an additional \$5.00 for every additional 20 lights or any portion thereof. Light means one sixteen candle power carbon filament lamp or one 50 watt tungsten lamp.

Power:

1 h.p. motor	\$5.00
1 to 2 h.p. motor	10.00
2 to 3 h.p. motor	15.00

and additional \$5.00 for each h.p. motor or fraction thereof. One h.p. means the maker's rated horse power of motor.

Note—All meter readers and other employees whose duties require them to enter premises of consumers are required to wear a badge.

A system is now being considered whereby light and waterworks meters will be read at the same time of the month and accounts rendered on one bill head for both services.

The Waterworks System is owned and operated by the City. The supply of water is obtained from springs and artesian wells in the valley of Boggy Creek, about 8 miles northeast of the City. A dam constructed across the Creek impounds about 100,000,000 gallons of water, which replenishes the Creek in times of drought. fifty-three wells have been sunk through clay to the water-bearing gravel bed found at an average depth of 100 feet. These wells overflowing and yield pure, sparkling water. Regina is in a unique position, as it is the only known instance of a large city deriving the bulk of its supply of water from overflowing artesian wells. A further number of wells will be sunk from time to time as requirements increase. The water is collected into the Barton Pump Well (270,000 gallons capac-

ity), and raised into the Tor Hill Reservoir by means of two 2,000,000 gallons per day Turbine Pumps, one direct connected to a 75 h.p. Motor and the other to a 100 h.p. Motor or either Pump can be driven by Oil Engines. Tor Hill Reservoir is a circular reinforced concrete construction. Has a capacity of 5,000,000 gallons and stands about 125 feet above the City level; it is 202 feet in diameter and the maximum depth of water is 25 feet. The spring water is conveyed by 15-inch vitrified pipe to the compensating basin, and thence by 10-inch Cast Iron Main to the City Pumping Station. The artesian well water gravitates from Tor Hill Reservoir to the City through 18-inch main.

A rectangular reinforced concrete reservoir is situated near the City Pumping Station. It is 150 feet long, 153 feet wide, and holds 21 feet of water, its capacity is 5 000,000 gallons.

The Compensating Basins have a capacity of 1,065,000 gallons.

There are installed at the City Pumping Station two 2½ million gallon per day stream driven Pumps, which can be operated in parallel or in series and furnish a pressure of 60 and 120 pounds per square inch respectively. There are also two steam driven horizontal direct acting pumps, and two 3½ mill steam turbine driven pumps which can be operated in parallel or in series.

The normal domestic pressure by gravity is 40 pounds per square inch which can be increased by pumping.

The distributing system consists of two

trunk mains 24 inches in diameter, and one 18-inch, with a Venturi meter on each line, the gridiron connections range down to six inches.

Rates as per Schedule in Bylaw 946

SCHEDULE "A"

Applicable to Private Houses Only

Size of House	Rate per month	Allowance per day	Allowance per month of 30 days
2, 3 and			
4 rooms	\$1.55	16 cubic ft.	480 cubic ft.
5 rooms	1.60	18 cubic ft.	540 cubic ft.
6 rooms	1.65	20 cubic ft.	600 cubic ft.
7 rooms	1.70	22 cubic ft.	660 cubic ft.
8 rooms	1.75	24 cubic ft.	720 cubic ft.
9 rooms	1.85	26 cubic ft.	780 cubic ft.
10 rooms	1.90	28 cubic ft.	840 cubic ft.
11 rooms	2.00	30 cubic ft.	900 cubic ft.
12 rooms	2.10	32 cubic ft.	960 cubic ft.
13 rooms	2.15	32.5 cu. ft.	975 cubic ft.
14 rooms	2.20	33.5 cu. ft.	1005 cubic ft.
15 rooms	2.25	34.5 cu. ft.	1035 cubic ft.
16 rooms	2.35	35 cubic ft.	1050 cubic ft.

Rate per 100 cubic feet for excess consumption over allowance 25c per 100 cubic feet.

The above monthly rates are payable in advance.

The monthly minimum rate will be charged whether water has been actually consumed or not.

SCHEDULE "B"

Applicable to all Other Services

Consumption per month of 30 days		Rate per 100 cubic feet	Minimum charge per month
0 to 1000	cubic feet....	23c	\$1.50
1000 to 2000	cubic feet....	21c	2.30
2000 to 5000	cubic feet....	20c	4.20
5000 to 10000	cubic feet....	19c	10.00
10000 to 15000	cubic feet....	18c	19.00
15000 to 22000	cubic feet....	17c	27.00
22000 to 30000	cubic feet....	15c	37.40
30000 to 40000	cubic feet....	13c	45.00
40000 to 50000	cubic feet....	12c	52.00
50000 to 70000	cubic feet....	11c	60.00
70000 upwards	10c	77.00

Consumers may be required to make a deposit with the City Treasurer, this deposit to be sufficient to meet the estimated consumption of water consumed per month. The average consumption of the preceding three months will be charged whether water has been actually consumed or not.

SCHEDULE "C"

Applicable to Consumers who have stand pipes connected with the City's Water System on their own private property.

Rate per month, payable in advance, 75c.

SCHEDULE "D"

Applicable to Houses situated on Sewer and Water lines which are not connected with the City Water System.

Charge per month, payable in advance, 50c.

SCHEDULE "E"

Building and Construction Rates

Concrete, per cubic yard	10c
Each 100 cubic feet in wall of rubble or coursed ashlar masonry	10c
Each 1000 Bricks	10c
Each 100 square yards of lime plaster	75c
Each 100 sq. yd. of wood fibre plaster	25c
The above rates are payable in advance.	

SCHEDULE "F"

Lawn or Garden Rates, applicable only to Consumers. Not charged on Meter Rates

\$3.00 for first 1000 square feet, 75c
for each additional 1000 square feet.

The above rates are payable in advance.

Applications for water service or the
turning off of water to be made to the
City Treasurer at the City Hall.

Accounts are rendered from the City
Treasurer's Office monthly and shall be
due and payable when rendered, but if
paid within ten days from the date
on which same are mailed the user of
water shall be entitled to a discount of
ten per cent. When accounts are not
paid within fifteen days from the date
on which said accounts are mailed, the
Superintendent shall disconnect the ser-
vice and the water will not be turned on
again until the arrears have been paid
together with an additional charge of
\$1.00 for re-connection.

Any change in occupancy or change in
fixtures should be reported at once to the
City Treasurer's Office.

Note.—All meter readers and other em-
ployees whose duties require them to en-
ter premises of consumers are required
to wear a badge.

CITY OF REGINA WATERWORKS DEPARTMENT

Table of Expenditure and Revenue for Years 1914, 1915, 1916, 1917, 1918 and 1919

Expenditure	1914	1915	1916	1917	1918	1919
Fixed charges	\$70,369.71	104,567.43	122,583.77	124,240.85	126,197.04	126,503.34

THE PARKS DEPARTMENT

The area of land set aside for Park purposes is about 257 acres, and is valued with improvements at \$3,300,000.00.

WASCANA PARK, which is situated to the south of the City, has an area of about 45 acres, has a frontage of a quarter of a mile along Wascana Lake, which extends for nearly two miles east, and affords excellent facilities for boating, bathing and skating, of which full advantage is taken. A large Boat Club Building is situated on the shores of the Lake, also a Boat Livery. The Bathing House is maintained for the free use of the public. A Band Stand occupies an appropriate position in the Park and frequent Band Concerts are given. This Park, adjoining as it does the grounds of the Regina College, and being in full view of the Lake and Parliament Buildings, offers ample opportunity for development as an ornamental Park, in the nature of a fine floral display to be inaugurated in the near future.

VICTORIA PARK—Situated in the heart of the City, contains over seven acres. This Park is laid out in an ornamental scheme, with a Fountain in the centre, while trees, shrubbery, and flowers are used to good advantage in beautifying it.

ALEXANDRA PARK—Is used as a children's playground, and is equipped with suitable gymnastic apparatus. It is proposed to lay out several other playgrounds in different parts of the City, in

a similar manner, with a view to conforming as far as possible with the School Curriculum of Playground teaching.

STANLEY PARK—Was re-planned during the summer of 1915, and laid out in an appropriate form to suit the surroundings with new walks, flower beds, trees, shrubs and lawns, and forms an appropriate setting for the Union Depot of the Canadian Pacific and Canadian Northern Railways.

HORTICULTURE—Considerable importance is attached to the culture of trees, shrubs, and flowers as a factor in molding the character of children and every effort is made to educate school children against the destruction of plants, trees and shrubs, which form the chief attraction of the Parks and Playgrounds.

BOULEVARDS—The Parks Department has under its control some 18¾ miles of Boulevards, which are seeded to grass, and planted with trees.

SPORT GROUNDS—Four of these are maintained in different sections of the City; these playfields are kept in good repair during the season.

The grounds are located as follows:

No. 1—At Exhibition Grounds, contains Baseball Diamond and Cricket Crease.

No. 2—At Block 254, between 9th and 10th Avenue, Retalack Street and Robinson Street, is used for Baseball.

No. 3—At Block 255, between 9th and 10th Avenues, Robinson Street and Cameron Street, is used for Football.

No. 4—Blocks 330 and a portion of 329, between Victoria Avenue west and South Railway Street, Argyle Street and Princess Street. These grounds are available for Baseball, Football and Tennis Courts.

NURSERY—The Nursery covers some 35 acres of ground, and is located at Broad Street north and Fourth Avenue. Here are being grown approximately 96,000 trees and shrubs, and about 10,000 herbaceous plants for future distribution in the different parks and playgrounds. There are also two greenhouses and 75 hotbed sash. From these some 75,000 plants are furnished for transplanting in the various Parks of the City.

PARK EXTENSION—Considerable attention has been given for some years to the question of a comprehensive scheme of Parks, Boulevards, Playgrounds, etc., and a noted City planning expert has been engaged to formulate such a scheme, and it would appear probable that steps will be taken in the near future towards outlining same.

SEWER SYSTEM

In 1910 a comprehensive sewer system was laid out to serve all the outlying parts of the City and work was commenced on the outfall arrangements and main trunk sewers in that year and has

since been carried on to completion. The system is a modified separate system whereby all the sewage from the old City system and the domestic sewage from later extensions is conveyed to the Disposal Works and treated therein before discharging into Wascana Creek, while the drainage and storm water is conveyed separately to discharge at convenient points from the various districts served. \$870,000 has been spent on this work which is in such shape that it is only necessary to install the various branch sewers as they are required by the expansion of the City to serve any part of it. The system is capable of expansion to any degree that is desirable within the present City Limits and any part of the area has an outlet furnished for any branch sewers that may be necessary.

There are now installed throughout the City 70.09 miles of sewer, varying in size from 8 inches to 72 inches in diameter. The disposal works is designed so that it can be extended to be capable of treating 9,000,000 gallons of sewage per day by a sedimentation and bacteriological process that will render the effluent non-putrescent and unobjectionable to residents adjoining Wascana Creek below the City.

REGINA MUNICIPAL RAILWAY

The construction of the Street Railway as a Municipal enterprise was projected in 1910. Actual construction began in the early part of 1911 and operation of cars

on same was commenced July 29th, 1911. At this time the system consisted of about six miles of track and six cars. At the present time there are 30 miles of track within the City Limits, 14¾ miles of this being in pavement. The rolling stock is as follows:

34 Passenger Cars.
 2 Sweepers.
 1 Snow Plow.
 1 Motor Haulage Car.
 30 Freight Cars.

The total expenditure up to December 31st, 1914, was \$1,723,830, of which \$266,-065 was for cars and car equipment.

Operation statistics for the year ending December 31st, 1919, are as follows:

Revenue passengers carried...	6,228,254
Transfer passengers carried..	714,870
Total passengers carried ...	6,943,124
Passenger car mileage	955,376
Other car mileage	20,635
Total car mileage	976,011
Passenger revenue	\$306,762.03
Other revenue	17,258.69
Total revenue	324,020.72
Operation expense	251,784.79
Operation surplus	\$72,235.93

Revenue passengers carried during the year shown an increase of 1,301,578 and passenger revenue an increase of \$66,-070.45. Passenger car miles operated were 955,376 as compared with 920,126 in 1918. Operation expenses increased 15% over the previous year caused by an increased wage schedule and higher cost of materials. However, the operation surplus was over double the best previous year the Street Railway has had. Improved service has been given on three of the four lines and further improvements are planned as the patronage justifies them.

The fares now effective are as follows:

Five cents cash.

Five tickets for 25 cents.

Twenty-one tickets for \$1.00.

Children tickets, 10 for 25 cents (for children over 5 and under 14 years).

Labor tickets, 8 for 25 cents (good only on week days from 6 a.m. to 8 p.m.).

MUNICIPALLY OWNED INDUSTRIAL SITES SERVED WITH UNIQUE SPUR TRACK SYSTEM

The City of Regina occupies a premier position, as regards Canadian Cities, and in fact a premier position among American cities, in that it owns a large portion of its original town site, and has set aside an area of about seventy-five (75) blocks in which are located and in which may be located wholesale, and distributing houses, and industrial concerns.

This area is served by a spur track system linked with the three trans-continental railways, that enables the business houses or industrial concerns to ship

goods and to have goods shipped to its place of business in carload lots, thus saving cartage.

The system of spur-tracking at the present time is as follows:

The Railway Companies, at the request of the City, construct what are known as main spurs, running chiefly through the lanes in the centre of the blocks. On any person acquiring property from the City, the City do two things; firstly, reserve a right-of-way over the 12 feet next to the lane for a right-of-way, and issue transfer to the remainder of the property free from all incumbrances. This 12-foot right-of-way is reserved in order that for all time to come the City will be in a position to supply the owners of property with spur track facilities, whether it be to one lot or to a whole block; secondly, on the issue of transfer the City obtain from the purchaser a spur track rental agreement, which calls for an annual rental, at the present time of 17 cents per front foot frontage on the lane. This rental defrays the cost of construction of the main spur. The City likewise pays a yearly rental for construction and maintenance of the main spur to the Railway Company.

The spur track rental agreement is registered against the title, but in no way affects the security, but merely protects the City in the event of the property changing hands.

On application to the Railway Company, approved of by the Board of Railway Commissioners and the City of Regina, the owner of property may obtain

a private spur from the main spur, along the 12-foot right-of-way. The property owner must, of course, pay for this private spur to the Railway Company.

This system of trackage means that the owner of property may have cars spotted to his place of business, no matter what Railway Company brings the car to the City, as the main system is connected up with all the Railway Companies.

At the present time there is constructed over seven miles of main spur tracking and over fourteen miles of private spurs.

This district is also well paved. It is served by water, sewer, electric light and power and Street Railway services, all of which are owned and operated by the City. A number of new businesses have been located here during the past four years and the City holds \$2,000,000 worth of property in this area, which is still available for manufacturing or warehouse sites.

The City Commissioners have authority to negotiate with anyone intending to locate in Regina, but each transaction is submitted to the City Council for final passing.

The property is sold at a reasonable price, there being no inflated values. The purchase of sites may be arranged on terms of one-quarter cash and the balance in three annual installments bearing interest at the rate of seven (7) per cent.

In order to eliminate speculation with this property, the City include in the agreement of sale a proviso, which calls upon the purchaser to erect buildings of

a certain value and type of construction within a specified time, and no more property is sold than is necessary for each business, allowances being made for expansion.

The City recently passed a By-law providing that on the application of all the owners of any block that it will pave from the curb to the building, thus making it much easier to handle merchandise, as trucks and drays can drive right up to the doorway on this paved portion. The cost of this pavement is paid for as a Local Improvement.

Regina is described in Industrial and Commercial Publications as the largest distributing centre of Western Canada, and, as a distributor of farm implements, the greatest in the world, business in this line having reached \$25,000,000 in one year.

Further particulars as to this property may be obtained from the City Commissioners.

(See also page 15).

BANKS IN REGINA

Bank of Montreal—A. F. Angus, Manager.

Bank of Nova Scotia—E. F. MacNeil,
Manager.

Canadian Bank of Commerce—A. W.
Ridout, Manager.

Dominion Bank—John Snow, Manager.

Imperial Bank of Canada—J. A. Wetmore,
Manager.

Merchants Bank—J. J. Galloway, Man-
ager.

Royal Bank—W. G. Yule, Manager.

Sterling Bank—H. Y. Complin, Manager.

Standard Bank—J. H. N. Morgan, Man-
ager.

Union Bank of Canada—O. F. Seeber,
Manager.

Bank of Hamilton—H. B. Adams, Man-
ager.

REGINA CLEARING HOUSE ASSOCIATION

Present Managing Committee—Messrs.
A. F. Angus, A. W. Ridout, W. G. Yule
and O. F. Seeber. Secretary—F. A. Mac-
Collom.

Managing Committee for 1920 not yet
elected.

There are 11 Banks in Regina, and all
were members of this Clearing House
prior to 1915, except the Bank of Ham-
ilton, which commenced business in Re-
gina in January, 1917.

The total clearings for the year 1919
were \$210,898,989.67, as compared with
the year 1918, \$184,624,631.76, as com-
pared with the year 1917, \$169,800,113.01.
For clearings back to the year 1910 see
Page 12.

THE POLICE DEPARTMENT

The Police Force and Department are
under the control of the Board of Police
Commissioners, consisting of the follow-
ing:

Jas. Grassick, Mayor (chairman).

His Honor J. W. Hannon, Judge of the
District Court.

J. H. Heffernan, Police Magistrate.

The Police Force consist of a Chief
Constable, one Inspector, Detective Ser-
geant, two Detectives, three Sergeants,
three Patrol Sergeants, two Patrol Driv-
ers, twenty-four Constables, Police Court

Clerk, Chief Constable's Clerk and Police Matron.

Police Magistrate—J. H. Heffernan. Phone 3221.

Chief Constable—M. J. Bruton. Phone 5366.

Police Department—General Office. Phone 3222.

Clerk to Police Commission—George Beach. Phone 3615.

During the year 1919 a total of 1449 persons appeared before the Police Court, having been arrested or summoned.

88 per cent. of all property reported lost or stolen during 1919 was recovered by the Department.

Six accidental or sudden deaths occurred in the City during 1919.

78 lost children were found by the Department and restored to their parents during the year.

The whole of the City is occasionally patrolled by the Police, but the regular patrol covers 457 City blocks with an approximate mileage of 28½ miles.

POST OFFICE

The Customs and Post Office Block completed in 1909 at a cost of \$250,000, is a handsome structure, and in every respect one of the best equipped buildings of this character in the three Prairie Provinces.

POSTAL REVENUES

The amount of revenue collected at Regina was as follows:

	Postal Revenue	Postal Notes Paid
1906	\$41,629.99	\$38,752.53
1907	54,130.17	33,989.37
1908	66,483.73	33,421.56
1909	76,412.03	40,920.26
1910	94,276.02	77,343.12
1911	121,262.21	87,416.63
1912	163,813.94	109,564.40
1913	189,181.54	126,898.01
1914	188,313.90	143,363.94
1915	234,851.95	147,095.99
1916	409,952.39	405,575.88
1917	510,365.54	636,218.77
1918	539,694.99	577,098.52
1919	580,603.31	540,392.24

MONEY ORDERS

	Issued	Paid
1906	\$118,953.29	\$249,176.71
1907	178,250.67	285,044.28
1908	160,105.46	422,254.60

INLAND REVENUE COLLECTIONS

The amount of Inland Revenue collected during the following years was:

1904 (ending June 30th)	\$5,949.00
1905 (ending June 30th)	5,528.00
1906 (ending June 30th)	8,823.00
1907 (9 months ending March 31st)	16,547.00
1908 (12 months ending March 31st)	26,418.86
1909 (12 months ending March 31st)	23,801.48
1910 (12 months ending March 31st)	29,287.00
1911 (12 months ending March 31st)	24,938.25
1912 (12 months ending March 31st)	32,918.00
1913 (12 months ending March 31st)	60,084.73
1914 (12 months ending March 31st)	65,996.06

and Seventh Avenue. Captain Faulk-
ner and Lieutenant Smith, Command-
ing Officers. Alfred Shatford, Corps
Sergeant-Major.

PARLIAMENT BUILDINGS

The erection of the Parliament Buildings was commenced in the fall of 1908, and the departmental offices were occupied in November, 1910. The building is constructed of Tyndall stone, fireproof throughout, and was erected by Peter Lyall and Sons, of Montreal, at a cost of approximately \$1,900,000, and the architects were E. and W. S. Maxwell, of Montreal. An independent Board of Architects was appointed as a commission to examine the competitive plans submitted by a chosen number of prominent firms, the chairman of which was Prof. Percy E. Nobbs, Professor of Architecture in McGill University, Montreal, resulting in the selection of the plans of E. and W. S. Maxwell.

The grounds, which are approximately 160 acres, are immediately south of Wasicana Lake, and are now within the City limits.

The length of the building is about 543 feet, and the height of the dome approximately 187 feet; the central portion is 98 feet in width and 267 feet in depth, with a wing on either side 222 feet long and 72 feet in depth.

The building has its own power house which furnishes heat and power for lights, operation of elevators, electric fans, etc.

PROVINCIAL NATURAL HISTORY MUSEUM

The Museum is located at the Normal School, Sixteenth Avenue. Over 400 mounted specimens of birds and animals are displayed in suitable glass show cases.

Also collection of moths and butterflies,
Indian curios, fossils, etc.

Hours: Week days from 9 a.m. to 5
p.m., except Saturday, when the hours are
from 9 a.m. to 1 p.m.

Curator—F. Bradshaw. Taxidermist—
H. Mitchell.

Registrar, A. R. Weir, B.A.

The University offers courses leading to degrees in Arts, Science, Agriculture, Law, Civil Engineering, Accounting and Pharmacy.

REGINA COLLEGE

The promoters of Regina College have had in mind the enrichment of the citizenship of the West by an educational institution calculated to meet necessities for which adequate provision had not previously been made in the Province.

In the Academic Department students are prepared for teacher's certificates, for University Matriculation, and the first year in the Arts course of the University. In the Preparatory Department a special effort is made to assist the thousands throughout the West, who, on account of frontier conditions, have not been able to get a complete elementary education. This course is designed to fit students for Grade VIII Examination or to give them a start in the Matriculation Course.

In the Conservatory of Music provision is made for a full and varied curriculum leading to musical degrees granted by the McGill University, and Toronto Conservatory of Music.

A full Commercial College is part of the Institution. This Department affords to its pupils the advantages of a wider association with College men and women, and with the faculty of such a body. In connection with the Commercial Department there is given a course in Business and Agriculture especially planned to help farmers' sons. Courses in Household Science and Dressmaking are provided.

Arrangements are also made for the teaching of elocution and a well outlined course in this subject has been provided.

Officers

President—Rev. E. W. Stapleford, B.A.,
D.D.

Chairman of Board—Chief Justice J. T.
Brown.

First Vice Chairman—His Honor, Judge
Hannon.

Second Vice Chairman—F. N. Darke.

Expression Department—

Florence R. Tutt, A.C.S.E. Teacher of Expression. Associate of the Conservatory School of Expression, Toronto University.

ST. CHAD'S COLLEGE

The Theological College for the Diocese of Qu'Appelle is situated on Sixteenth Avenue. Fifteen acres of land were purchased from the Provincial Government, on part of which the College is built. It is a very handsome structure of red brick

with terra cotta dressings. The building which includes a Warden's residence in the east wing and the College Chapel in the west wing is a free rendering of the English College style. There is room for thirty resident students besides the staff and servants. It is one of a group of buildings which the Anglican Communion hopes to erect on the site purchased from the Government. The Synod and Clergy houses have also been built on this site.

The Venerable Archdeacon Dobie, D.D., Warden of the College.

The staff includes: The Rev. C. J. S. Stuart, M.A., M.C.; the Ven. Archdeacon Knowles, LL.B.; the Rev. F. Stanford, A.K.C.L.; Ven. Archdeacon A. E. Burgett, M.A.; Rev. Canon Davidson, M.A.

QU'APPELLE DIOCESAN SCHOOL FOR GIRLS

The Qu'Appelle Diocesan School for Girls was established in 1918. The school is under the charge of the Sisters of St. John the Divine.

The staff consists of:—

Sister-in-charge — Sister Madeline, S.S.J.D., assisted by Sister Ellen, S.S.J.D.; Sister Mabel, S.S.J.D.; Sister Katherine, S.S.J.D.

Head Mistress—Miss Marion Green.

Assistant Mistresses — Miss Beatrice Wilson, Kindergarten; Miss Hattie Craig, Music; Miss Jean Craig, Music; Mrs. Illingworth and Miss Rowell.

The course of instruction is that prescribed for the Public Schools of the Province of Saskatchewan, supplemented by courses in Religious Instruction, French, Music and Dancing. The School is a local centre for the Toronto Conservatory Music examinations. Special courses are given by arrangement with the Sister-in-charge.

Chaplain—The Ven. Archdeacon Dobie,
D.D.

Treasurer — The Ven. Archdeacon
Knowles, LL. B.

THE REGINA COLLEGIATE INSTITUTE

The Board is composed of Messrs. D. J. Thom, K.C., Chairman; Jas. Balfour, K.C.; W. G. Styles; G. F. Blair, K.C.; Mrs. W. W. Andrews.

\$228,180.62

Patients treated 4368

Total days of treatment.....65085

REGINA GREY NUNS' HOSPITAL

This Hospital is under the direction of the Grey Nuns, with Sister M. V. Allaire in charge as superintendent. Phone 4932.

The Hospital is situated on Blocks 223 and 224, on Dewdney Street, near the Exhibition Grounds. It is thoroughly up-to-date in every respect and has the same arrangement for heating and ventilation, and the same class of roofing as the Parliament Buildings. It can accommodate 110 patients in addition to staff.

There is also a very comfortable home for forty Nurses, situated on the Hospital Grounds. The equipment and service is excellent. Any medical practitioner in good standing is free to introduce patients and use the operating room.

Fees for patients from \$2.50 to \$5.00 per day, according to wards.

REGINA PUBLIC LIBRARY

The Regina Public Library is under the control and management of a Board appointed by the City Council, as provided by the Public Libraries Act of the Province.

Buildings

Central Library—Lorne Street, Victoria Square.

Albert Branch—Eighth Avenue, North-West.

Scott Street Branch—Corner Scott St. and 6th Avenue.

Prince of Wales Branch—Corner Winnipeg Street and 13th Avenue.

HOURS

Central Library

Week days: Circulation Department from 10 a.m. to 9 p.m. Week days: Reading Rooms from 10 a.m. to 10 p.m.

Children's Department

Every school day from 12 noon to 1.30 p.m. and from 3 p.m. to 8 p.m. and on Saturdays and all school holidays (except those next mentioned) from 10 a.m. to 8 p.m. Story hour on Saturdays during the winter months, 3 p.m. to 4 p.m.

Reference Department

Week days only from 10 a.m. to 9 p.m.

The Reading Rooms of the Central Library are open on Sundays (for adults only) from 2 p.m. to 5 p.m.

All Library premises are closed on the following public holidays: Christmas Day, New Year's Day, Good Friday, Victoria Day, Dominion Day and Labor Day.

Any reputable resident of the City may become a borrower of books from the Circulation Department by filling up an application form (to be obtained at the Library).

Vacation Libraries, put up in a convenient carrying case, are issued to families of residents of the city while spending the holidays at summer resorts, in the Province. Special application has to be made for this privilege. These libraries are available between the 15th of June and the 30th of September.

Each member of a family of eight years of age or over may obtain library privileges on the above conditions.

Transient visitors to the City may obtain books by making a deposit of \$3.00 and obtaining a "transient borrowers' ticket at the Central Library.

Branches

Open from 2 p.m. to 6 p.m. and 7 p.m. to 9 p.m.

Other Troops

Artillery—"C" Battery, Royal Canadian

Horse Artillery (not yet organized, but to be stationed at Regina).

BIRTHS, MARRIAGES AND DEATHS

The securing of a complete and accurate record of all Births, Marriages and Deaths occurring within the City is a matter of the most vital importance to the individual and the community. Such a record is of the greatest value as a means of determining the City's growth, of compiling accurate birth and death records and of securing the legal and personal rights of the individual. Citizens generally should bear in mind that the unregistered child has no existence in the eyes of the law. It is the first duty of the parents to safeguard the rights of their children by the prompt registration of births.

The following are the principal regulations governing registrations:

All births and marriages must be registered at the office of the Department of Health within 30 days from the occurrence thereof.

Deaths must be registered at the same office before a permit to bury can be obtained.

Parents, guardians or occupants of dwellings where births occur are required to register births.

Clergymen officiating are required to register marriages.

Physicians attending are required to certify as to deaths.

Neglect or failure to report births, marriages, deaths or burial renders parties liable to a fine not exceeding \$50.00.

LICENSES

License Inspector—S. Lyne.
